### Profile

Hello Company R! I know you're busy, so here's what you need to know about me in one sentence:

Your company stands out to me; I've been designing and developing with REACT on web apps; I'm active on youtube inspiring others to improve each other; my proudest moment was building a private social media app for new born parents. I'm always learning new frameworks, languages, methodologies and APIs.

### Relevant Experience

#### [Real Estate App \(ComeHome\)](#)

##### **React based app to find home fast**

- Understanding PSD/Wireframes to HTML
- Executed React front-end in ES6, with Babel, Gulp, Webpack, and Node.
- Create reusable components with React

#### [E-Commerce Website \(Johnson Co\)](#)

##### **Implementation of design and functionality.**

- Custom SCSS styling written with BEM-IT naming conventions.
- Developing User Interface Design and Development
- Coordinated closely with UI/UX, Design, and QA. Prototyped and WireFramed

#### [Auto Repair Shop \(Cabrales Auto Repair\)](#)

##### **Freelance site maintenance and digital design**

- Implement Bootstrap and Javascript to improve UX flexibility
- Design & maintain website and make sure content up to date.
- Responsible for developing branding ideation for our client
- Deployment and hosting setup for client

### Environment:

#### [Front-End](#)

Javascript ES6 / jQuery CSS / SASS / LESS Gulp / Webpack
